

2023 NATIONAL ICT SUMMIT

**BUILDING A CULTURE FOR SUSTAINING
THE GOVERNMENT'S DIGITAL TRANSFORMATION**

ON AUGUST 22-23, 2023 AT NOVOTEL MANILA ARANETA CITY

#TayoNaGoDigitalPH #SamaSamaGoDigitalPH #MakiisaGoDigitalPH

FERDINAND R. MARCOS, JR.

Facing the challenge of the administration of President Ferdinand R. Marcos, Jr., the **CIOF-CIOFF** and its partners and cooperating organizations, particularly the **DICT** will hold the **NICT Summit 2023** on August 22-23, 2023, focusing on the Digital Transformation (DX) Journey of the government. This is cognizant of the strategic role of DX as a key driver in our economic growth as well as in achieving a citizen-centric government, as expressly pronounced by the President.

An important segment of the Summit (second day) will be **"The President's Hour"**, where **H.E. President Ferdinand R. Marcos, Jr.** will be the Honored Guest and Speaker. During his presence the following will happen: (1) Launching and Presentation of the Digital Transformation Maturity and Assessment Framework for Government; and (2) Recognition of Industry Partners."

Key Takeaways:

- Deepen your understanding of underlying digital transformation concepts
- Share knowledge, experiences and network with peers implementing their DX journey
- Receive critical insights from leading industry experts
- Opportunities for industry partners to showcase DX solutions, and also opportunities for consultation

Who should attend

Chief Information Officers (CIOs)/ICT managers and practitioners of national and local government officers, academics, the private sector, and other interested parties

Who we are

The CIO Forum and the CIOF Foundation are non-government, non-profit organizations consisting of, respectively, incumbent and former government chief information and communications technology officers (CIOs) and heads of ICT bureaus or offices in government. Both organizations work closely with and support the Department of Information and Communications Technology and other departments and agencies of government, through their CIOs, in promoting the digital transformation of government and in addressing ICT concerns affecting government operations and services.
